

REMARKS

These remarks are submitted in reply to the Office Action dated February 22, 2007.

Applicant respectfully requests reconsideration and further examination of the patent application under 37 C.F.R. § 1.111.

Claims 2, 4, 5, 23, 26, 27 and 40 – 51 have been cancelled. Claims 1, 3 6 – 22, 24, 25 and 28 - 39 remain in the present application. Based on the remarks herein, Applicant respectfully requests that the Examiner reconsider and withdraw all outstanding rejections.

I. Claims 1 – 51 were objected to for various informalities. Applicant has amended the claims to include most of the Examiner’s suggestions – although Applicant submits that there would be insufficient antecedent basis for changing “a” transmitter to “the” transmitter in Claims 25 and 41.

II. Claim 23 was rejection under section 101 as being directed to non-statutory subject matter. Applicant has deleted claim 23 rendering this rejection moot.

II. Claims 40 – 51 were rejected for failing to comply with the written description requirement. Applicant has deleted claims 40 – 51 rendering this rejection moot.

III. Claims 5-21, 27-34, 38 and 39 were objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and intervening claims. Applicant has amended claim 1 and 24 to include the elements of the allowed claims and the intervening claims and thus submits claims 5 and 24 and claims that depend therefrom are in condition for allowance.

CONCLUSION

In light of at least the foregoing amendments and remarks, Applicant respectfully submits that claims 1, 3, 6 – 22, 24, 25 and 28 - 39 are in condition for allowance and such action is earnestly solicited. *The Examiner is respectfully requested to contact the undersigned by telephone if it is believed that such contact would further the examination of the present application.*
